Brilliant replaces any existing light switch to give you touch and voice control over your smart home products from lights, music, climate, locks, and doorbells to whatever comes next.

Brilliant: Smart Home Control

having a wide color gamut with brightness. One can increase the size of the color gamut by increasing the saturation of the primaries. Saturated primaries move the red, green, and blue points of the triangle closer to the edge of the visible color spectrum and cover a greater area of the visible color spectrum.
