During a rescue excavation in the village of Magoula near Sparta, a pit was revealed which contained a heap of fragments of large and small vessels, the products of an unglazed ware pottery workshop. This paper presents the distinctive features of the workshop; the characteristic incised decoration on the strap-handle is considered its "trade mark".

An unglazed ware pottery workshop in twelfth-century

Based on the unglazed commonware within these sectors, it is possible to suggest that, these potteries were used in two period: 5-7th century AD. and from middle of the 10th-first half of the 12th century A.D.

Egypt produced several varieties of unglazed pottery. The most common pottery was the ordinary red, cream-colored, and the yellow ones. The art of covering pottery with enamel was invented by the Egyptians at a very early date.

The Egyptian Pottery | Art History Summary. Periods and

ABSTRACT Chlemoutsi was the most important castle of the Principality established in the Peloponnese after the Fourth Crusade. The glazed pottery of the Frankish period (early 13th- early 15th c.) is almost exclusively Italian, reflecting the connections of the Principality of Achaea with Italy and illustrating the tastes of the Latin elite in ceramics.
